

Set the mood.

MOOD RING is not your typical wedding band. They play the songs you know, but in inventive, re-imagined ways — picture sending the music through a sultry Instagram filter.

Of course, they know how to party, especially when the horn section gets called in! MOOD RING prides themselves on being able to provide a full spectrum of unforgettable musical experiences, from subdued ambiance during a sophisticated cocktail hour to all-out fist-pumping, booty-shaking dance party throw downs.

Their diverse musical offerings include many radio hits from the 90s/2000s as well as classic R&B, soul, and vintage jazz, and an ever-increasing range of styles from Brazil, France, and most recently, Cuba.

Cynthia leads the band on mandolin and vocals, and the group is available as a trio (with guitar and bass), quartet (trio + drums), or quintet (quartet + piano), with the option to add on up to three horns.

MOOD RING loves getting to know clients and their preferences to design the perfect musical backdrop for their wedding or event. The band will gladly learn special requests for moments such as first dances and ceremony processions.
