

Let's make Treble!

The Treblemakers take a playful, light-hearted approach to American acoustic music. Drawing songs from both classic and contemporary sources of bluegrass, folk and country, every performance is dynamic, high-quality, and thoughtfully customized.

Bandleader Cynthia McDermott (mandolin, vocals) loves working closely with clients and planners to ensure the band provides the perfect set list, vibe and volume for each event they play, and the band is always willing to learn requests and adapt them to string band instrumentation.

The Treblemakers play most often as either a trio or quintet, and offer configurations from two up to six pieces. The core trio is mandolin/vocals, guitar and bass; fiddle, banjo and pedal steel are options for additional instruments.

The band carries their own sound equipment, and can have microphones accessible for speeches/toasts if necessary. Recorded background music is available during breaks if requested. Cynthia is also happy to act as general MC (introducing couple for the first time at reception, making any pertinent announcements).
